

Staff Data Collection Statement for the REF 2021

The University of Portsmouth is required to make a submission under the Research Excellence Framework 2021 which includes personal data relating to individuals who have been selected for inclusion based on their own research outputs, or who are involved in research groups which have been referred to in the submission. The intention of this notice is to explain how your personal data will be processed by the UKRI as part of the analysis of the University's submission.

If you have any queries about the information in this notice, please contact Denise Teasdale, Research Manager, Research and Innovation Services (denise.teasdale@port.ac.uk) for further information.

For further information on how the University processes your personal data generally, please read the [Data Protection Statement for Staff](#).

The purpose of the Research Excellence Framework 2021 (REF 2021) is to assess the quality of UK research and to inform the selective distribution of public funds for research by the four UK higher education funding bodies. The REF is managed by the REF team, based at Research England (RE), on behalf of the four UK higher education funding bodies. RE is part of UK Research and Innovation (UKRI), and under this arrangement UKRI has the role of 'data controller' for personal data submitted by the University to the REF.

If you are a researcher who has been included as part of our submission to the REF 2021, we will send some of the information we hold about you to UKRI for the purpose of the REF in early 2021. The information will not be in coded form and your name and details such as your date of birth, Open Researcher and Contributor ID (ORCID), research groups, and contract dates will be provided along with details of your research. If you have declared individual circumstances and a request is made to allow a reduction in the number of outputs submitted, without penalty, some details of your personal circumstances will be provided.

Your personal data may be used to support the University's REF 2021 submission, which as a national research assessment exercise, is necessary for the performance of a task carried out in the public interest.

You can find further information about what data are being collected on the REF website, at www.ref.ac.uk in particular publication 2019/01, 'Guidance on submissions'.

Sharing information about you

UKRI may pass your data, or parts of it, to any of the following organisations that need it to inform the selective distribution of public funds for research and to carry out their statutory functions connected with funding higher education:

- Department for the Economy, Northern Ireland (DfE)
- Higher Education Funding Council for Wales (HEFCW)
- Scottish Funding Council (SFC).

Some of your data (Unit of Assessment, HESA staff identifier code and date of birth) will also be passed to the Higher Education Statistics Agency (HESA) to enable it to verify coded data returned to it as part of our HESA staff return (see www.hesa.ac.uk). Data returned to the REF will be linked to that held on the HESA staff record to allow UKRI and the organisations listed above to conduct additional analysis into the REF and fulfil their statutory duties under the Equality Act 2010 (England, Wales and Scotland) or the Northern Ireland Act 1998 (Northern Ireland).

UKRI and the organisations listed above will use the information to analyse and monitor the REF 2021. This may result in information being released to other users including academic researchers or consultants (commissioned by the funding bodies), to carry out research or analysis, in accordance with the Data Protection Act 2018 and the General Data Protection Regulation (GDPR) (Regulation (EU) 2016/679). Where information not previously published is released to third parties, this will be anonymised where practicable.

UKRI will require that anyone who has access to your data, held in UKRI's records, paper or electronic, will respect its confidentiality and will only process it in accordance with instructions issued for the purposes specified by UKRI.

Parts of your data will be passed to the REF expert panels and the Equality and Diversity Advisory Panel (whose members are independent of UKRI) for the purpose of conducting a systematic evaluation of submissions, in accordance with predetermined criteria and methods. Panels will make judgments about the material contained in submissions and will not form quality judgments about individuals. All panel members are bound by confidentiality arrangements.

Publishing information about your part in our submission

The results of the assessment exercise will be published by UKRI, on behalf of the four UK higher education funding bodies, in April 2022. The published results will not be based on individual performance nor identify individuals.

Those parts of submissions that contain factual data and textual information about research activity will also be published by UKRI, on behalf of the four UK higher education funding bodies, and will be made available online. Published information is likely to include **textual information including impact case studies in which you may be referenced**. Your name, job title and periods of employment may be included in this textual information. Other personal and contractual details, including your date of birth and all information about individual staff circumstances will be removed.

Unless redacted, the information to be published by UKRI, on behalf of the four UK higher education funding bodies, will include a single list of all the outputs submitted by the University in each Unit of assessment. The list of outputs will include standard bibliographic data for each output, but will not be listed by author name.

Data about personal circumstances

You may have voluntarily declared personal circumstances, which could permit us to submit your information to the REF without the 'minimum of one' output requirement (without penalty), or to submit a reduced number of outputs without penalty. If (and only if) we apply either form of reduction of outputs, we will need to provide UKRI with individual-level data that you have declared about your individual circumstances, to show that the criteria have been met for reducing the number of outputs. Please see the 'Guidance on submissions' document

(paragraphs 151-201) for more detail about reductions in outputs and what information needs to be submitted. Submitted data will be kept confidential to the REF team, the Equalities and Diversity Advisory Panel, and main panel chairs. All these bodies are subject to confidentiality arrangements. The REF team will destroy the submitted data about individuals' circumstances on completion of the assessment phase.

The University details the data management of the declaration process in our REF 2021 [Code of Practice](#) Section 4.4.3. All declarations are held confidentially and securely. Anonymised information is retained for post submission review and in aggregate form for E&D reports.

Accessing your personal data

Under the Data Protection Act 2018 and the GDPR, you have the right to request a copy of any personal information that UKRI holds about you. Further information about the Act and GDPR, and guidance on making a subject access request, can be found on the RE website at <https://re.ukri.org/about-us/policies-standards/foi-data-protection/>

If you have any concerns about your information being used for these purposes, please contact:
